VALUES

Relationships before deals | Rise by lifting others
Service to community | Clarity for the future

VALUES DETAILED

Relationships Before Deals

We prioritize building strong, meaningful relationships over transactions, fostering trust and long-term partnerships.

Rise by Lifting Others

We believe in uplifting others to achieve collective success, supporting each other and our clients in reaching their full potential.

Service to Community

We are committed to making a positive impact through social responsibility, giving back to the communities we serve.

Clarity for the Future

We strive for transparency and foresight, ensuring that our actions and strategies are clear and aligned with future goals.

All In Commitment

We fully dedicate ourselves to our clients and mission, embracing our “All In” philosophy to deliver exceptional, proactive service and drive transformative results.

Etymology of Source 1 Solutions®

Source 1 Solutions derives its name from a combination of elements that convey its core values and market positioning:

Source:

Origin: From the Latin “surgere”, meaning “to rise” or “to spring up,” through Old French “sourcier” and Middle English “sourc(e)”. It signifies the origin or fundamental point of reference. In this context, it reflects the company’s role as a key provider and foundational element in IT services.

1:

Symbolism: Represents leadership and excellence. The number “1” denotes primacy and a commitment to being at the forefront of the industry, suggesting that the company aims to be the top choice for managed IT services.

Solutions:

Origin: From the Latin “solutio”, derived from “solvere”, meaning “to loosen” or “to solve.” This term indicates the company’s focus on providing answers and effective responses to complex IT challenges.

Tagline Integration:

Our Source Code is HumanitySM

Tagline Meaning: The tagline “Our Source Code is Humanity” encapsulates the company’s commitment to placing people and relationships at the heart of its operations. It highlights that while technology is fundamental to their services, the core values driving their business are centered around human connection, empathy, and understanding.

**Creating
inspiring ideas
and building
brands that
truly matter
to people.**

Be true.

Incorporation of Company Philosophy

All In Philosophy

The “All In” philosophy underscores a wholehearted commitment to excellence and client success. It means that Source 1 Solutions is fully dedicated to going above and beyond in every aspect of their work, embracing challenges with a proactive and comprehensive approach.

People Before Deals

This principle reflects a commitment to prioritizing relationships and ethical practices over mere transactions. It aligns with the tagline by emphasizing that the company’s focus is on genuine human connections and trust, rather than just business outcomes.

The Power of One

The power of one is amplified when it becomes one with the power of many. Together, individuals transform into a force greater than the sum of their parts. This highlights how individual efforts are magnified when aligned with a unified team, emphasizing the synergy between personal contributions and collective strength.

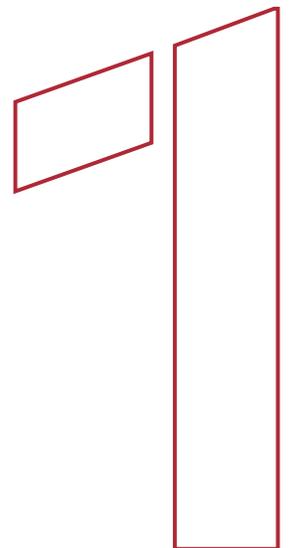

Combined Meaning

Source 1 Solutions represents a leading provider in the IT services industry, emphasizing foundational reliability and excellence. The name and tagline together communicate that while technology is a critical component of their services, the essence of their brand is rooted in human values. The company is dedicated to being a top choice by fully committing to their clients and prioritizing meaningful relationships over transactions. The “All In” philosophy and “People Before Deals” principle reinforces the dedication to delivering exceptional, people-centered solutions and fostering lasting partnerships. Lastly, the “Power of One” is central to our approach, reflecting our commitment to each individual’s role and impact. As we combine the power of one with the strength of the collective, our unified team becomes a force greater than the sum of its parts. Together, we transform individual efforts into a comprehensive, unparalleled service experience.

We strive to create a conducive environment for personal and collective growth.

Logo Introduction, Elements, Clearspace, Computation, and Incorrect Logo Applications.

Logo Introduction

LOGO INTRODUCTION

Our logo is the key building block of our identity, the primary visual element that identifies us. The signature is a combination of the the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

THE FULL LOGOTYPE

The Source 1 Solutions masterbrand or corporate logo comprises two elements, the logo symbol and logotype. The logo symbol is a powerful image evoking the culture of Source 1 Solutions' services - the connection between the strength of communication and the different points that influence.

It has a particular relationship with the Source 1 Solutions name. The logotype has been carefully chosen for its classic and yet refined, highly legible style, which has been further enhanced by the use of upper case letters.

The corporate logo is presented through the use of color as well as shape and form. The two corporate colors are red and black. It is a fresh and appealing blend of colors chosen for their strong combination - modern - classic - timeless.

ATTENTION:

Use of any stylized, animated, hand drawn, or other versions of an official logo is not permitted. This undermines the logo system and brand consistency. Please consult with Source 1 Solutions trademark licensing if you have any questions or need further help.

Logo Construction & Clearspace

LOGO CONSTRUCTION & CLEARSPACE

It is important to keep corporate marks clear of any other graphic elements. To regulate this, an exclusion zone has been established around the corporate mark. This exclusion zone indicates the closest any other graphic element or message can be positioned in relation to the mark of the the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

INCORRECT USAGE

The Corporate Fonts Consist of the Primary, Secondary, and Tertiary Fonts.

The Corporate Font and History

Typography plays an important role in communicating an overall tone and quality. Careful use of typography reinforces our personality and ensures clarity and harmony in all Source 1 Solutions communications. We have selected Roboto, Rubik, and Arial, which helps inject energy and enthusiasm into the entire Source 1 Solutions communications, as the primary, secondary, and tertiary corporate typefaces.

Rubik Extra Bold

DESIGNER: PHILIPP HUBERT AND SEBASTIAN FISCHER

Rubik is a sans serif font family with slightly rounded corners designed by Philipp Hubert and Sebastian Fischer at Hubert & Fischer as part of the Chrome Cube Lab project.

Rubik is a 5 weight family with Roman and italic styles, that accompanies Rubik Mono One, a monospaced variation of the black roman design.

Meir Sadan redesigned the Hebrew component in 2015. Alexei Vanyashin redesigned the Cyrillic component in 2016.

Typography and Hierarchy

Typographic hierarchy is another form of visual hierarchy, a sub-hierarchy per se in an overall design project. Typographic hierarchy presents lettering so that the most important words are displayed with the most impact so users can scan text for key information. Typographic hierarchy creates contrast between elements. There are a variety of ways to create a sense of hierarchy. Here are some of the most common techniques for Source 1 Solutions layouts.

Secondary Logos

Explanation

A secondary logo can help a brand resonate more effectively with local audiences, ensuring it feels relevant and approachable in different contexts. For example, a logo might be modified to incorporate specific color schemes, typography, or symbols that are more culturally significant in a European market. Additionally, the use of localized logos can help a company navigate legal requirements, such as trademark laws, and strengthen its position in a competitive market by fostering a sense of connection and trust with local consumers.

Grid System Examples for Use in Magazines, Posters, Advertisements, and Presentations.

The Source 1 Solutions Grid Systems

In graphic design, a grid is a structure made up of a series of intersecting straight (vertical, horizontal, and angular) or curved guidelines used to structure content. The grid serves as an armature on which a designer can organize graphic elements (images, glyphs, paragraphs) in a rational, easy to absorb manner. A grid can be used to organize graphic elements in relation to a page, to other graphic elements on the page, or relation to other parts of the same graphic element or shape.

Brand Voice & Tone

The importance of brand voice can't be overstated. Whether you want your company's personality to be friendly and casual, or distant and formal, you want to make it easy for marketers, salespeople, and content creators on your team to know how to represent your brand online. This will ensure consistent messaging across all channels.

You can also include a full editorial style guide. The job of an editorial style guide is to commit to an editorial stylebook on how to phrase certain products, list topics the brand can and cannot write about, and

Branded Words & Phrases

Source 1 Solutions vs. SOURCE 1 SOLUTIONS

For the sake of uniformity across all Source 1 Solutions platforms, we have delineated specific terms and expressions within our style guide. Whenever the name appears in textual form—be it as the logotype, within body text, as the business name, or spelled out—it should always follow title case convention: Source 1 Solutions with only the S capitalized.
